Reasons For Allowance

Claims 1-16 are allowed

The following is an examiner's statement of reasons for allowance:

The prior art references most closely resembling the applicant's claimed invention are Lohita et al (U.S. Patent No2003/0211845) and Laursen et al., (U.S. Patent No. 6,233,608).

First Lohita discloses only that the code or digits corresponding to a particular information requests are transmitted. Lohita et al do not disclose or suggest that information specifying a location of the wireless handset is transmitted with the service feature code, service ID or telephone number (1,14).

Second Laursen discloses using credential information to access an account. However Laursen do not disclose information specifying a location of the wireless handset is transmitted with the service feature code, service ID or telephone number (1,14).

In summary, the Examiner submits that neither Lohita nor Laursen teaches all the limitations of the independent claims in combination with other elements. Specifically prior art does not teach, "information specifying a location of the wireless handset is transmitted with the service feature code, service ID or telephone number" there is no motivation to combine the aforementioned references; therefore, claims 1-14 have been deemed allowable over the prior art.
